

05 Parental Responsibility on School Trips

X

During each academic year, the Fountains Primary School will go out on a variety of educational visits.

At times, you may have an opportunity to attend trips with your child/children. In these circumstances your child will not be on our school risk assessment and it will, therefore, be your sole responsibility to ensure that your child remains safe on this trip. That said, you are more than welcome to remain with your child's class group. At no time will you be asked to look after another child in school without a member of staff being within the group.

Please can all parents/carers/extended family members who may accompany your child on a school educational visit, please complete the form below confirming that you take full responsibility whilst out on such trips with your child.
